COUNCIL TALKS POI

Young Says We Should
Build Shops.

UNCLEAN METHODS USED

An Appropriation Wanted to Improve
Streets in Portuguese
District.

In the absence of President Dole from yesterday's session of the Council of State, Councilor Kaulukou was chosen to act as chairman. There was a small attendance and routine work was the main business considered. Councilors Achi, Robinson, Kaulukou, Jones, Allen, Gear, Nott, Ka-ne and Gonsalves, and Ministers Mott-Smith and Young answered the roll call. Attorney General Cooper was busy in court.

Councilor Jones, on behalf of the Committee on Finance Department reported that the committee had summed up the totals of Act 3, and the bill had been reprinted and lay on the desks of the members. The new total amounted to \$496,916.82, being an increase of \$122,149 over the amount as first reported to the Council. The report was accepted and laid on the table for consideration with the bill.

Councilor Ka-ne read the report of the Judiciary Committee, covering sections 2, 3, 4, 5 and 6 of Act 4, wherein was stated:

"Your Committee on the Judiciary and Attorney General's Departments to whom were referred sections 1, 2, 3, 4, 5 and 6 of Act 4, beg leave to report that we recommend that the sections pass in the bill with the exception that section 6 be amended by adding thereto the words 'by the President of the United States.'"

"Respectfully submitted,
"A. G. M. ROBERTSON.
"P. K. KA-NE.
"J. L. KAULUKOU."

It was moved by Councilor Jones that Act 3 pass its first reading, which was effected by a unanimous vote.

Wants Road Repaired.

At this point Councilor Gonsalves arose to request that a new item be inserted amounting to \$17,000 for the purpose of widening Miller street from Punchbowl to Kinau streets and a similar work performed on Kinau street between Punchbowl and Alapai streets. If this item could not be inserted then he wanted the assurance of the Minister of Interior that part of the appropriation of \$526,000 for roads and bridges in Honolulu would be utilized for straightening out these streets. During rainy weather children could not go through the streets to school, and laborers were forced to tramp through mud to go to work. The stone wagons from the quarry were road destroyers, and both streets were literally quagmires on wet days. Gear thought that the big appropriation was sufficient to insure street repairs and improvements, as requested, by Mr. Gonsalves. Mr. Young assured the latter that he would recommend the improvements to the Road Supervisor, and Mr. Gonsalves sat down, satisfied with the Minister's promise.

Bill 2 was then taken up line by line and passed for its second reading, several corrections being made.

Minister Young asked that a new item, to be known as 160A, Poi Houses, Honolulu, \$20,000, be inserted. He thought \$25,000 would be about the amount needed, but cut the figure down.

Achi did not believe in the Government grabbing everything in sight. He thought an inspector of poi should be appointed. But building houses for everything—wash houses, poi houses and the like—was something they should not do, as it would interfere with private rentals.

Achi Eats Poi.

"There is a law providing for inspecting poi, but it is a dead letter," said Mr. Achi. "I eat poi every day and I would like to see it made properly. It will make the people suffer to have poi made in one place only. The manufacturers will charge for delivering poi. I don't think it is right to force it upon us to have poi made in one locality."

Minister Young did not think the measure would hurt the Hawaiians, but, to the contrary, would be beneficial, especially from a health standpoint. The Government might endeavor to enforce a regulation requiring cement floors, but he did not think the manufacturers would comply. The slushings in the present constructed houses seeped through floors and kept the earth beneath wet and insanitary. The poi shops were nuisances as at present constructed.

Achi said the law against poi manufacture in certain districts was forced upon the Legislature by people who intended to form a company to get a corner on the output of poi. "The natives will howl if the Government takes hold of this matter," continued Mr. Achi. "What are the sewers constructed for, if not to carry off the slushings?"

Mr. Ka-ne was in favor of Minister Young's proposition, as he thought that under Governmental supervision adequate place would be provided for turning out healthy poi. Minister Young was certain that the sale of poi would not be hindered, but only its manufacture affected.

Achi replied tersely: "I want to assure the Minister that it cannot be done."

Adjourned until 3 p. m. today.
